

Crestwood Chronicle

Hello Spring! Such a beautiful time of year with all of the flowers in bloom. Our gardens are looking great, with everyone weeding, planting and mulching. To continue the beautification of Crestwood all of the street name signs are getting a fresh coat of paint. If you can help out please contact us to get the paint and supplies needed. We appreciate all of the help.

Our playground area also got some much needed landscaping (all of which were repurposed plants). Go take a look!

Please be courteous of your neighbors and friends and obey all traffic signs by stopping at all stop signs and driving the speed limit. Summer will be here soon and kids will be outside playing even more. *Please be cautious.*

Our Spring fling/chili cook-off was a fun filled day for all. Stephanie Pope and Stephanie McKeough did a wonderful job and we had a great turnout. The Easter bunny even came by to take pictures with the kids. Thanks to Mike for providing the music and to Will for the jump house. Congratulations to Mr. Restivo for winning the chili cook-off. All of the chili was delicious.

Thanks for allowing us to serve as your board members for 2015. We will continue to help make Crestwood Estates a great place to call home!

To Crestwood residents,

I am writing this letter on behalf of Public Works and myself as your councilman to provide information regarding drainage. As all of you know, we are constantly working to maintain and improve the drainage in the Crestwood subdivision. We are aware and know that you are aware of the importance of proper drainage function throughout the area.

In order for the drainage program to work properly, it is important that we view the ditch structure in Crestwood as one interlocking unit. All parts must be free to work together to insure that drainage is adequate throughout the subdivision.

It is with this philosophy in mind that we wish to notify the residents of Crestwood that Public Works will clean whichever ditches are deemed necessary. We are aware of the importance of the esthetic aspect of drainage ditch maintenance. We assure you that we will do only what is necessary to insure proper function of the ditch and leave the area in the best possible condition considering the nature of the process.

This practice is a critical part of our efforts to protect your property and the property of your neighbors. We want to thank each of you for your understanding of these required functions in our efforts to insure the quality of life that we have come to know and enjoy in St. Tammany.

Sincerely yours,

F. Dennis Sharp
District 2 Councilman
